- Composition of the MAP: *Society (5), Science (3), Policy (3)*
- Platform aim - *support revitalisation of rural areas (focus on peripheral communities)*

Monica Mihaela TUDOR

1 December 2020

SHERPA Annual Conference

What we did?

- **Reach consensus**
 - ask to be more specific / to give details or examples
 - ask for other' participants point of view
 - find common points
 - ask for broader the perspective / to look from the context perspective
 - ask participants to project on the long term run effects
 - ask for balance pro & cons arguments
- **Dealing with diversity**
 - look for specificities
 - detail the specificities based on contexts or stakeholder' group perspectives
 - find common points
 - build on common points
- **Reflect divergences / diversity**
 - text boxes reflecting the divergent opinions

Challenges

- How to strengthen the participants' commitment after a dispute in on-line interaction ??
- How to intervene so that disputes do not turn into competition ?
- How to overcome decision blockages ?
... majority vs. middle way solution vs.
-
-

THANK YOU

**Rural Science-Society-Policy
Interfaces**
