

CONSOLE
CONtract SOLutions for Effective and lasting
delivery of agri-environmental-climate public goods
by EU agriculture and forestry

Davide Viaggi, University of Bologna

31 January 2022

SHERPA Annual Conference

Project intro

Type of project: RIA

Start & end date: 1 September 2019-31 October 2022

Coordinator UNIBO + 23 partners

Main objective of the project: to boost innovation in the lasting delivery of Agri-Environmental-Climatic Public Goods by EU agriculture and forestry

Main insights and conclusions

- Innovation in contract solutions for environmental service is needed (result-based, collective, value chain)
- However resistance and acceptance issues are important and may have good reasons
- Key to build on good practices and real life examples
- But also understand real performances and their determinant
- Build tailored solutions having in mind a menu of options and huge number of hybrid solutions
- Importance of collaborative design, encouraging learning processes
- Profit of opportunities and policy cycle (CAP reform)

How it contributes to implementing the LTVRA?

- Better awareness of new contract solutions

- Showcasing good examples

- Quantitative info on farmers & stakeholders view

- New model contracts & design guides

- Lasting community of practice
