

How to facilitate a SHERPA MAP event?

During SHERPA MAP events, in particular **interactive workshops**, it is essential to ensure a proper **facilitation of the discussions** and of the exchanges among the stakeholders.

What are the methods that helps the facilitation process?

- Reinforce agreement
- Make a proposal to participants
- Accept, legitimise, deal with an issue brought by a participant
- When several themes emerge simultaneously, synthesise, name the various topics, and decide which ones to pursue
- Acknowledge statements
- Pause to boost the focus of the conversation
- Parrot the statement to stimulate a reaction from the audience.
- Decide whether participants can deal with a statement in the moment
- Boomerang : Ask a question back to the participant who asks it
