

# How to engage with stakeholders during a SHERPA MAP event?

**1**

Do an **icebreaker** at the **beginning of the event** as a good way to warm up, and help the audience connect with the purpose of the event.

When should you include icebreaker exercises?

- Participants from different backgrounds.
- Know better the MAP Facilitator.
- A newly formed group.
- New or unfamiliar topics.
- Bond quickly for a common goal.

**2**

**Quizzes and questionnaires** to help your audience to know more information about the topics and speakers.

**MENTIMETER**

**SLIDO**

**3**

Create live polls through Zoom, Teams or Google Meet to **boost up the attention and encourage voting.**

**4**

**Make memories** by creating some souvenirs or taking group pictures.

**5**

**Enable networking** through breaks (i.e. 20-30 minutes) for participants to get to know each other and exchange ideas.
