The Multi-Actor Platform method

- A voice & a Motorway to the Commission!
- Interests and Knowledge
 - Policy
 - Science
 - Civil Society
 - Private sector/businesses
 - NGOs
- The Process
 - New established and dynamic
 - Territorial
 - SMS, craftsmen, incl. agriculture
 - Youth and green
 - All regions
- Anchoring

The evolution of MAP Denmark – from generic to specific policy advice

EUROPEAN WEEK OF
REGIONS & CITIES

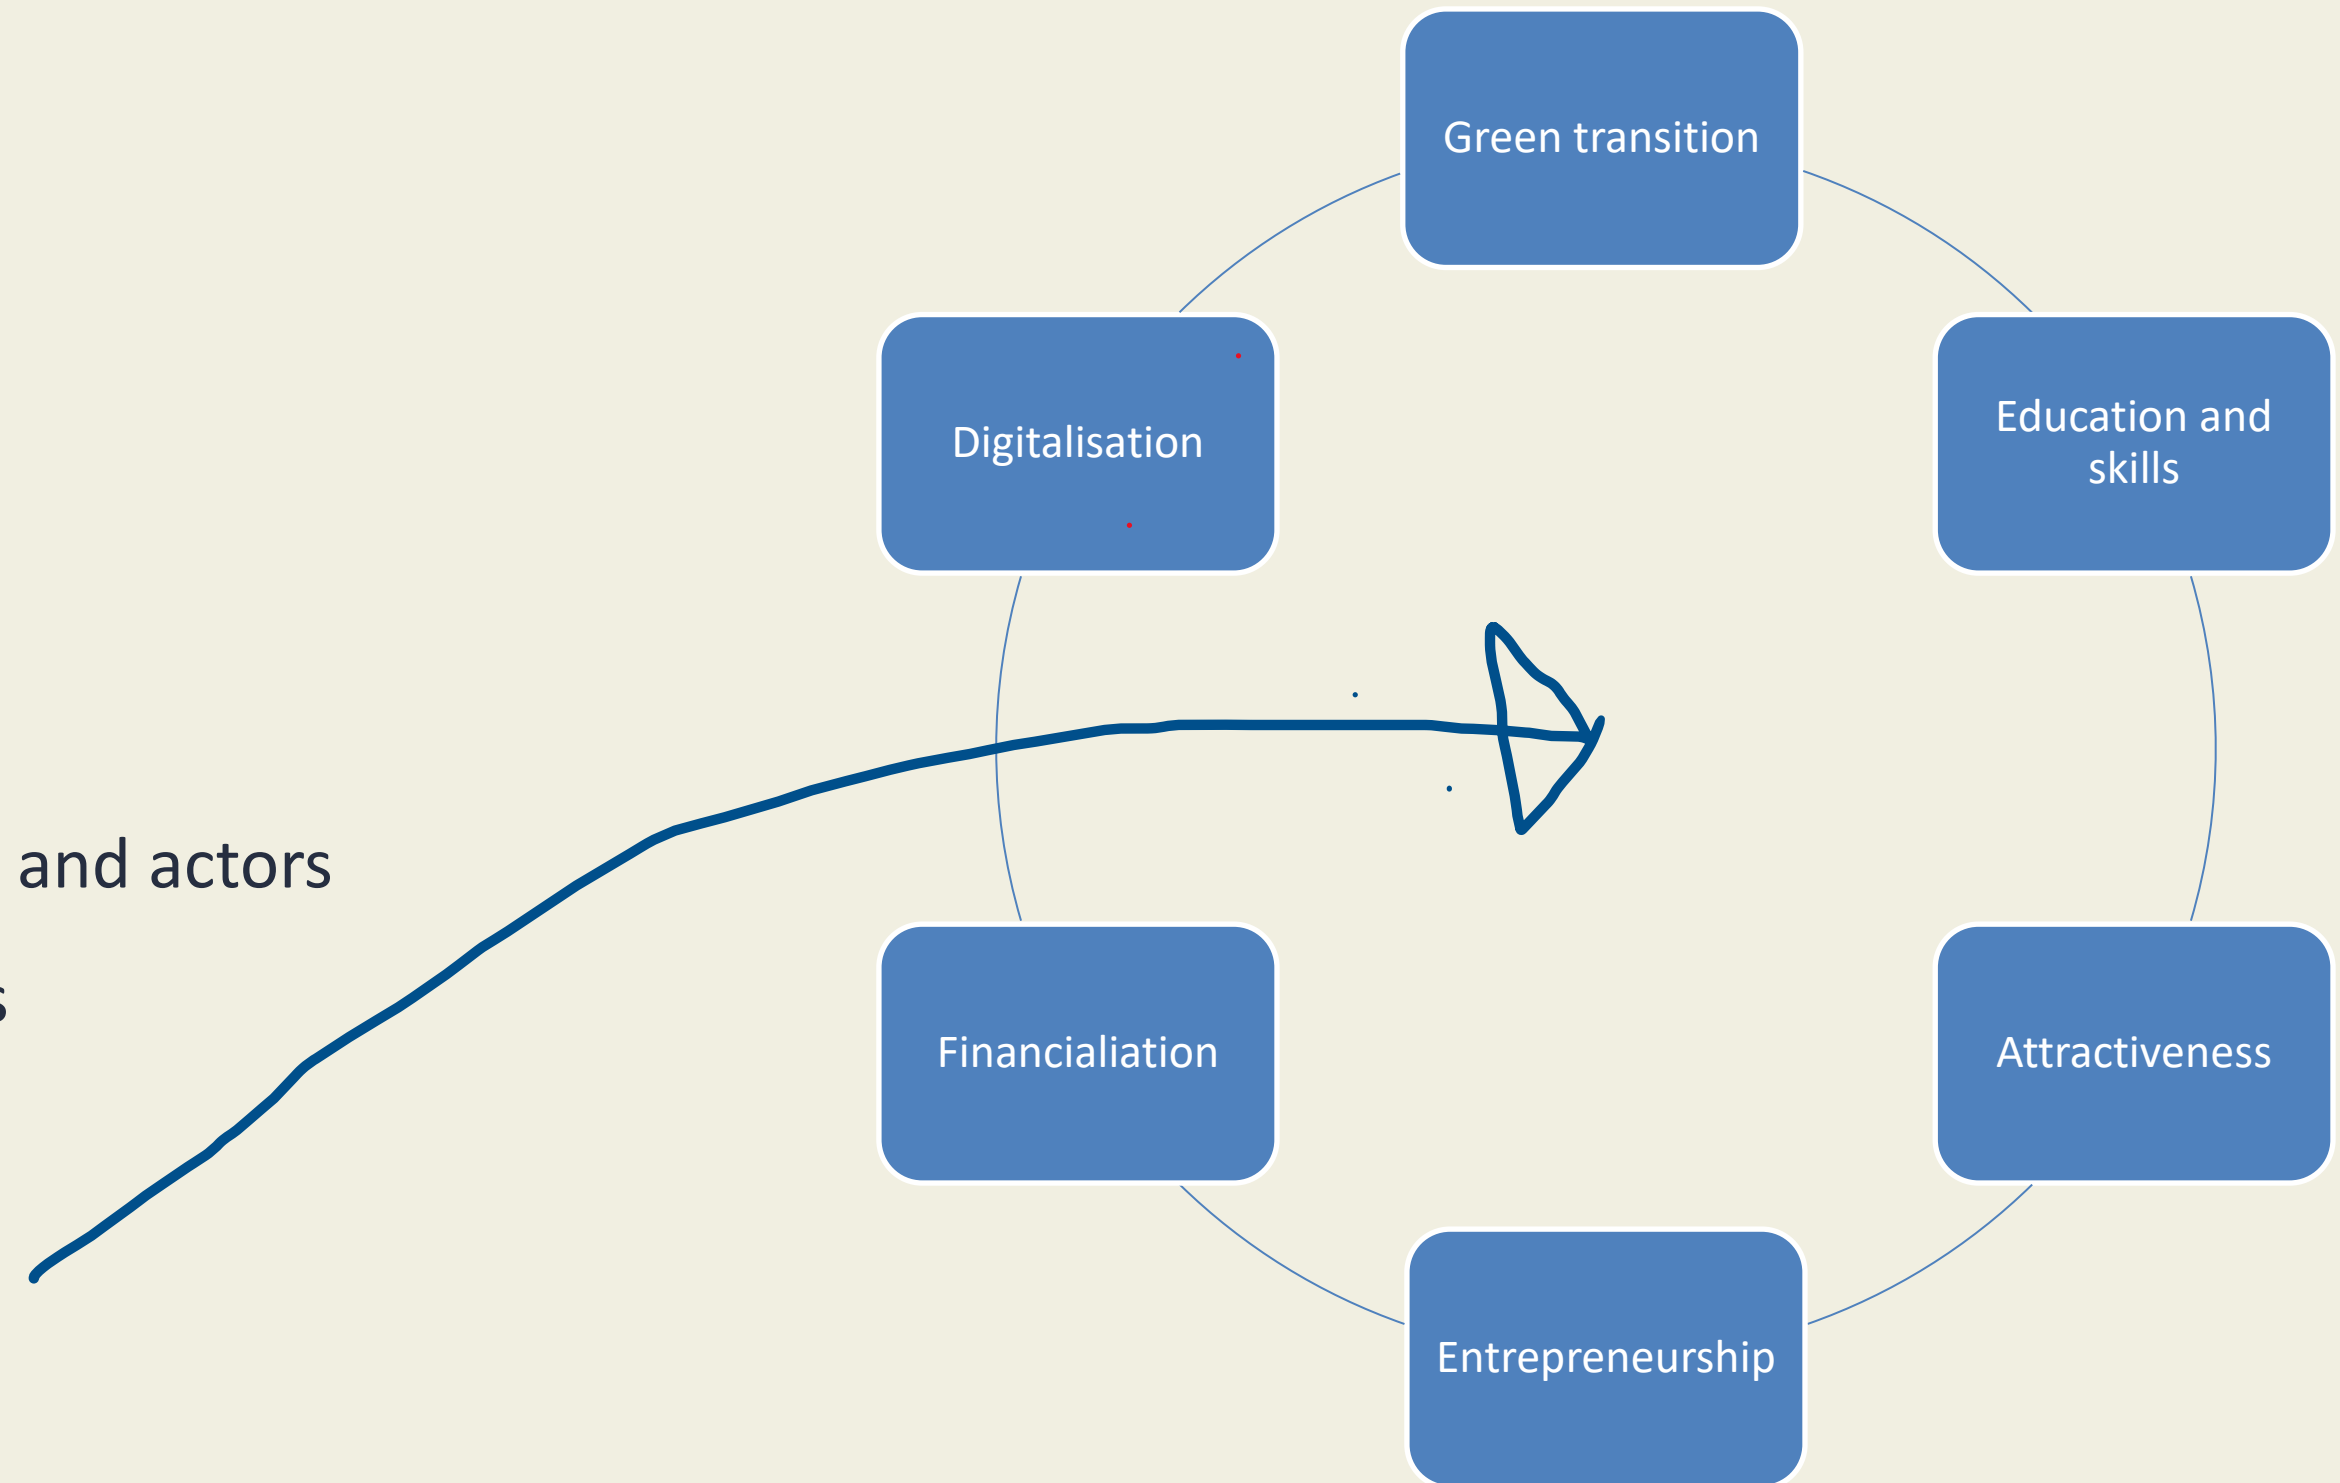

#EURegionsWeek

1. Year: Challenges/Opportunities

1. Green transition
2. Collaboration between sectors and actors
3. Devolved power and resources

2. year: A diversified rural economy

Pathways for a green transition

EUROPEAN WEEK OF
REGIONS & CITIES

#EURegionsWeek

- **3. year: How to ensure a green, sustainable transition? Denmark**

- Land – a fixed resource!
 - 60% agriculture
 - Past history of farming
 - Multiple interests => conflicts and competition
 - Food production and lowlands
 - Renewable energy
 - Public governance and stakeholder consultation
 - Land ownership
-
- Policies
 - Cross-sectoral collaboration and supervision
 - Ensuring local ownership and local value creation
 - Reviewing key laws and regulations
 - Integration of funding models between MES and EU
 - Urban village renewal

Experiences and good practices

MULTIFUNKTIONEL JORDFORDELING: DET ÅBNE LAND SKAL GAVNE ALLE

Et områdes potentiale måles på 6 parametre. Hvert parameter får point fra 1-5, som viser, hvad området er bedst til. Ingen parametre må have negativ værdi. Et område skal kunne bruges til flere formål på en gang.

Local ownership in the energy transition
Wind turbines (3.0 MW) deliver electricity, heat and harbour investment

Collective Impact
